

Importance of Color --another test of ALBEDO

TEST YOUR KNOWLEDGE

1. Which car color do you think is the warmest? Which car color is the coolest?
2. Use the IR Sensor to test each car and check your guess.

Press and release trigger

SOLAR BASIC FACTS

- Dark colored objects absorb sunlight and convert it to heat.
- Light colors reflect the sunlight and are cooler.
- The colors of your clothes effect how warm or cool you feel.
- The colors of building materials, such as a roof, can effect the inside temperature of your house.

CAN YOUR COLOR CHOICES MAKE YOU SUNWISE®?
