

Timmy Telescope Solar Astronomy Education

Where was Timmy during 2022?

Covid-19 restrictions began to lift and Timmy brought his new Lunt 100mm solar scope to events.

After 26 years in NM Timmy said good-bye to all his New Mexico friends and moved back to PA. The residents in his new community are enjoying looking at the Sun in a new way. He has been reestablishing contacts with local organizations and plans to keep busy with outreach events in 2023.
